

Technical data sheet for wear protection rubber germanLine[®] Black 60

Specifications:		
	Standard	Value
Elastomer	-	NR/BR
Colour	-	black
Hardness	DIN 53505	60 ± 5 ° [Shore A]
Tensile strength	DIN 53504	≥ 17 [MPa]
Elongation at break	DIN 53550	≥ 400 [%]
Abrasion	DIN 53516	≤ 130 [mm ³] at 10 N
Available dimensions: Thickness: 5/8/10/12/15/20 mm Width: 1,500/2,000 mm Available lengths: 10/20 m Uses: germanLine [®] Black 60 is mainly used when wear resistance has to be extremely high, i.e. when dealing with rough abrasive material and great heights of drop. germanLine [®] Black 60 shows excellent tear and tensile strengths.
